Dear Dr. Ellsberg:-

I just wanted to pass the  
attached along to you.

I finally obtained your address  
through the courtesy of my  
Congressman, The Honorable  
William S. Moorhead.

Golden Triangle Broadcasting,  
Inc., is a Pennsylvania Corp.  
WKKI, in my opinion, is the  
best radio station in Pittsburgh.  
They also own a station in  
Youngstown, Ohio and Erie, Pa.  
50,000 Watts <sup>WEEP</sup> AM + FM. In  
my opinion they are quite prosperous.

Very sincerely yours,

Al J. Lantz

SUBJECT: DOUBLE STANDARD

The time has come for Americans to decide exactly what they want from their public servants. We have been bombarded by the news media for two years with stories of so-called wrong doing --- some of which had merit and some of which had no basis.

— Certainly when there is such a massive amount of investigation going on as a part of the present attack on the Administration some skeletons are going to turn up in some closets. Overall, it is highly encouraging that the vast majority of the members of this administration have come out perfectly clean. Remember, you only hear about the one's on which something can be found. Also, those who have been sentenced and gone to jail have in the main been found guilty not of extortion, fraud, or crimes of violence---but for such things as violating the civil rights of Pentagon thief Daniel Elsberg's Psychiatrist in an attempt to prevent national security leaks.

— These sentences are in themselves a frightening indication of the kind of justice handed down during periods when public opinion is under the influence of inflammatory reporting. So---here you have your leaders, they have been branded villains by the press. However, it appears that their villainy, if you wish to call it that, has been prompted more by desire for national security than for personal gain. So what kind of leaders do you want? Do you honestly believe that there exist politicians so pure of heart, so untouched by lust for power or craving for a place in history that they will live up to a Hollywood movie version of a president.

— Do you believe that leaders of business, industry, politics--even the church, are such angels amongst men.....let's be realistic and let's stop listening to the press when they call for this ridiculous double standard--purity for the leaders and normal American moral standards for the rest of us. I suggest we look for effectiveness in the job and not moral purity, because after all its the effectiveness of our President which has brought the world to the brink of lasting peace and it was the moral purity of Neville Chamberlain which allowed Adolf Hitler to plunge the world into World War II. You pays your money and you takes your choice !
